

CX-Pallet™

Cargo Inspection Solution

Security & Detection Systems

CX-Pallet accelerates your screening of consolidated cargo in pallets, crates and ULDs by eliminating the need to unpack and repack cargo for inspection. High-energy scanning and flexible controls give you the comprehensive information you need to identify explosives, weapons, drugs and other contraband – even in densely packed ULDs.

Advanced Technology

Powerful scanning and sensing technology means you can screen cargo more efficiently and more reliably.

- High-energy X-ray sources for powerful dual-view imaging
- Industry-leading ClearView™ Imaging supports dual-energy material discrimination to differentiate between organic and inorganic materials
- Optional third-party sensors like radiation detection are easily integrated

Applications

Designed for air, sea and land borders as well as cargo facilities, CX-Pallet is ideal for primary inspection or secondary screening of large freight loads.

- A range of door options, tunnel sizes and optional conveyors creates the most efficient inspection solution for your environment
- ClearView Workstation integrates all data and sensors instantly to clear cargo faster

Performance

With valuable cargo and urgent delivery deadlines at stake, there's no substitute for efficiency. CX-Pallet keeps goods moving – without sacrificing reliability.

- Accelerates screening of consolidated cargo in pallets, crates and ULDs
- Handles large containers quickly – no unpacking and repacking
- A range of energy levels means you can penetrate even the densest cargo
- Advanced networking capabilities enable real-time information sharing and workflow management across centralized and remote locations

Outstanding Service and Support

Recognized worldwide for our commitment to customer service, L-3 fields one of the industry's largest and most experienced global service teams. We offer a full spectrum of services to help you reap maximum value from your investment while maintaining robust, effective and efficient operations.
