Advanced Personnel Screening

Security & Detection Systems

**This family of safe, effective, and proven people screening solutions can be deployed at security checkpoints in airports, courthouses, correctional institutions, other government and commercial facilities.**

**The ProVision series of advanced personnel-screening solutions quickly screens subjects using safe active millimeter wave (MMW) radio frequency technology to detect concealed objects made of a broad range of materials – both metallic and non-metallic. Choose from ProVision, ProVision ATD, or ProVision 2 for safe, effective, and proven performance in fast-paced and demanding environments.**

### Proven Performance and Reliability

Nearly 1,000 deployments around the world at airports, courthouses, embassies, laboratories, correctional facilities, and more.

- Only TSA approved system – ProVision ATD
- EU approved systems – ProVision 2 and ProVision ATD
- Scan times of less than 1.5 seconds
- Total scan and processing time for a complete multi-directional view of less than six seconds for the ProVision ATD and the ProVision 2, and 10 seconds for the ProVision imaging system
- ProVision 2 and ProVision ATD process 200-300 people per hour depending on security protocols

### Superior Technology

Safe millimeter wave (MMW) technology utilizes radio waves to detect a broad variety of concealed materials, including both metallic and non-metallic threat items.

- ProVision 2 is a reduced size version of the widely deployed ProVision ATD
- ProVision ATD and ProVision 2 provide an image-free solution that eliminates privacy concerns.
- Identification of metallic and non-metallic concealed items, including weapons, liquids, gels, plastics, powders, ceramics
- Reduces need for time-consuming pat-down searches
- Does NOT use X-rays or any ionizing radiation
- The ProVision imaging system is upgradeable to an image-free system which will automatically search for threats using the Automatic Target Detection software

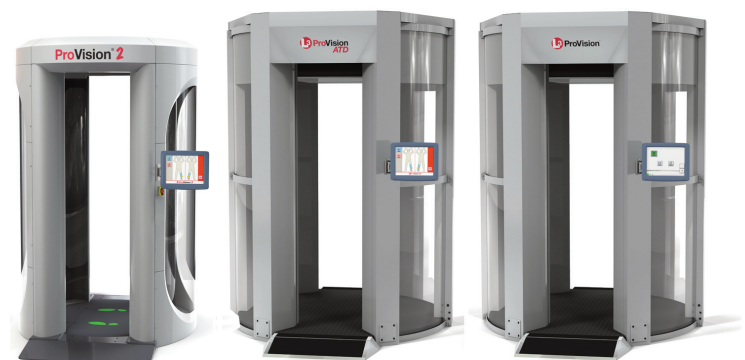

### Low Total Cost of Ownership

Advanced technology gives operators the information they need to clear suspicious items efficiently and effectively.

- Simple to operate with minimal training
- Highly reliable, durable system
- ProVision ATD and ProVision 2 require no analysis personnel or remote viewing room. You benefit from increased consistency
- Configurable to fit different applications

### Outstanding Service and Support

Recognized worldwide for our commitment to customer service, L-3 fields one of the industry's largest and most experienced global service teams. We offer a full spectrum of services to help you reap maximum value from your investment while maintaining robust, effective and efficient operations.
