PX™ 18.18-MV 200

Palletized Freight and Cargo X-ray System

L-3

Security & Detection Systems

Designed for air cargo and suitable for many other settings, L-3's PX 18.18-MV 200 delivers superior image performance and penetration. With a tunnel opening 1.8M wide and 1.8M high, this multi-view system vastly reduces the number of skids, pallets and ULDs* that need to be unpacked, fostering more efficient screening while maintaining the highest levels of security.

Powerful Screening, Streamlined Operations

L-3's multi-view 200 kVp X-ray source delivers superior penetration and image quality, while a purpose-built design improves efficiency.

- High-energy scanning, real-time image manipulation and an innovative push-button operator interface promote rapid screening
- A low-height, heavy-duty conveyor with narrow pitch rollers facilitates easy loading and unloading of pallets via a forklift
- Choice of dual-view and single-view systems and multiple energy levels lets you choose screening capabilities to suit your requirements and your budget
- Networking facilitates a remote suspect screening station and supervisor workstation

Ideal for Diverse Screening Goals and Settings

By reducing the need for unpacking, PX 18.18-MV 200 makes it easier to confirm shipment contents, detect tampering and facilitate secure storage.

- Facilitates efficient detection of explosives, weapons, drugs, or misrepresented goods—even in densely packed ULDs
- Meets the exacting standards of air cargo and is also suitable for seaports, warehouses, manufacturing centers and military bases
- Adapts to your needs with configurable powered entry and exit conveyors and optional roller tables
- Presents operator instructions in multiple languages

Faster Clearing, Greater Accuracy

With comprehensive information and flexible controls, operators can clear cargo and freight efficiently and effectively.

- Dual-energy material discrimination improves threat detection
- Threat Image Projection (TIP) feature periodically inserts fictitious threat images, enabling supervisors to train screeners and assess effectiveness
- The Operator Assist® (OA) feature highlights target material

Outstanding Service and Support

Recognized worldwide for our commitment to customer service, L-3 fields one of the industry's largest and most experienced global service teams. We offer a full spectrum of services to help you reap maximum value from your investment while maintaining robust, effective and efficient operations.
